'Clue' Being Developed Into Stage Show, Will Debut in 2017!

The iconic 1985 film *Clue*, based on the popular board game, is becoming a stage show!

“Clue is one of Hasbro’s most popular games and the 1985 film has rightfully earned its place as one of the most iconic murder mystery films of all time,” **Simon Waters**, Hasbro General Manager & SVP Entertainment & Consumer Products, said in a statement (via *Variety*). “We are excited to work with The Araca Group on this unique new live production, which will capture what fans love about the original film, while offering some new and exciting surprises along the way.”

The 1985 film is also being rebooted by 20th Century Fox for a new movie.

The stage show will premiere at Bucks County Playhouse in May 2017, and will then have a United States tour.
