Clue Heads for the Stage in New Play

Paramount Pictures/YouTube

By Michael Lambert

Fans of the cult-classic film starring Tim Curry can see the murder-mystery romp in playhouses starting 2017.

Mr. Body isn't safe anywhere these days.

Clue, the Hasbro murder-mystery board game that inspired the 1985 cult-classic film, is getting the stage treatment with a new, official play. The play from the movie's writer-director Jonathan Lynn will be ready by May 2017.

The movie, which starred Tim Curry, impressed audiences after release with physical comedy, highly quotable jokes, and a multiple-choice ending. The flick is the standard for board-game movies (sorry, *Ouija*).

Clue will get a movie remake as well. Until then, make sure to check out the original—and all of Ms. White's sickening reads.
